TO THE TEACHER

What is *Top Notch*? *Top Notch* is a four-level communicative course that prepares adults and young adults to interact successfully and confidently with both native and non-native speakers of English.

The goal of ***Top Notch*** is to make English unforgettable through:

- Multiple exposures to new language
- Numerous opportunities to practice it
- Deliberate and intensive recycling

The ***Top Notch*** course has two beginning levels—***Top Notch Fundamentals*** for true beginners and ***Top Notch 1*** for false beginners. ***Top Notch*** is benchmarked to the Global Scale of English and is correlated to the Can-do Statements of the Common European Framework of Reference.

Each full level of ***Top Notch*** contains material for 60–90 hours of classroom instruction.

NEW This third edition of ***Top Notch*** includes these new features: Extra Grammar Exercises, digital full-color Vocabulary Flash Cards, Conversation Activator videos, and Pronunciation Coach videos.

Award-Winning Instructional Design*

Daily confirmation of progress

Each easy-to-follow two-page lesson begins with a clearly stated practical communication goal closely aligned to the Common European Framework's Can-do Statements. All activities are integrated with the goal, giving vocabulary and grammar meaning and purpose. *Now You Can* activities ensure that students achieve each goal and confirm their progress in every class session.

Explicit vocabulary and grammar

Clear captioned picture-dictionary illustrations with accompanying audio take the guesswork out of meaning and pronunciation. Grammar presentations containing both rules and examples clarify form, meaning, and use. The unique *Recycle this Language* feature continually puts known words and grammar in front of students' eyes as they communicate, to make sure language remains active.

High-frequency social language

Twenty memorable conversation models provide appealing natural social language that students can carry "in their pockets" for use in real life. Rigorous controlled and free discussion activities systematically stimulate recycling of social language, ensuring that it's not forgotten.

Linguistic and cultural fluency

Top Notch equips students to interact with people from different language backgrounds by including authentic accents on the audio. Conversation Models, Photo Stories, and cultural fluency activities prepare students for social interactions in English with people from unfamiliar cultures.

Active listening syllabus

All Vocabulary presentations, Pronunciation presentations, Conversation Models, Photo Stories, Listening Comprehension exercises, and Readings are recorded on the audio to help students develop good pronunciation, intonation, and auditory memory. In addition, approximately fifty carefully developed listening tasks at each level of ***Top Notch*** develop crucial listening comprehension skills such as listen for details, listen for main ideas, listen to activate vocabulary, listen to activate grammar, and listen to confirm information.

*We wish you and your students enjoyment and success with **Top Notch 3**.*

Dr. Miller: I must have changed mine ten times before I settled on medicine! Have you decided on something else?
Charlotte: Well, actually, I've developed an interest in the health field, and since you're a doctor . . .
Dr. Miller: Are you thinking of medicine?
Charlotte: Not specifically. Something related that doesn't take that long to study . . .

Charlotte: I know there are some good options, but I'm having trouble making up my mind.

B ▶ 3:21 **RHYTHM AND INTONATION** Listen again and repeat. Then practice the Conversation Model with a partner.

GRAMMAR Expressing intentions and plans that changed: Was / Were going to and would

Be careful!

Don't use would + a base form alone. It must be used in a noun clause. Use was / were going to instead.

NOT She would be a doctor.

You can also use would (the past of will) + a base form to express plans and intentions that changed, but only in a noun clause following verbs such as thought, believed, or said.

She thought she would be a doctor (but she changed her mind).

We always believed they would get married (but they never did).

They said they would pay for their daughter's studies (but they didn't).

The Five Most Effective Work Habits

Advice to new workers from a CEO

If you are new to the working world, you are eager to demonstrate your skills and knowledge. However, in addition to those, some basic work habits may be even more effective in promoting your success. Read the following advice to new workers, written by the head of a company.

- 1 Volunteer for assignments** One of the best ways to signal that you are a keen learner and are not afraid of hard work is to volunteer for assignments. However, before volunteering for a task, be sure you have the skills and knowledge to accomplish it successfully.
- 2 Be nice to people** Be nice to people regardless of their rank or position. When you are nice to people, they go out of their way to help you, and every new worker needs help in order to get ahead.
- 3 Prioritize your work** We all love to start work on things that are close to our hearts. However, these may not be the most urgent and important in our list of tasks to do. Have a list of things to do according to their strategic importance to your company. When you prioritize your work, you are more productive, and that increases your chances of career success.
- 4 Stay positive** As someone new in the working world, you are not used to office culture. And there may be office politics that complicate things. Try to stay above politics and remain positive in the face of challenges. When you are positive, you stay focused on your goals. You make better decisions and, therefore, get more things done.
- 5 Highlight a problem but bring solutions** Offer a solution each time you highlight a problem to your boss or management. You need to remember that when you bring problems and not solutions, people may think of you as a “complainer.”

These five work habits, at first glance, may seem like common sense. However, in actual working environments, people tend to forget the basics. I counsel new workers in our company to internalize this behavior and consistently use it to increase their chances of career success.

- 3 Why is "being nice" a valuable habit to develop?
- 4 What is the value of prioritizing tasks?
- 5 How does staying positive help you be more productive?
- 6 What's wrong with stating a problem without proposing a solution?

NOW YOU CAN Discuss factors that promote success

A NOTEPADDING On your notepad, write some factors that have helped you be successful in your life, studies, or work, and some factors that have prevented you from being successful. (You can choose one, some, or all areas to comment on.) Then compare notepads with a partner.

Basma: Wow! That dress your sister's wearing is gorgeous! What was the occasion?

Mi-Cha: Oh, that was for Chuseok. The dress is called a hanbok.

Basma: Did you say Chuseok? What's that—a holiday?

Mi-Cha: That's right. It's a traditional Korean holiday. It takes place in September or October each year to celebrate the harvest.

Basma: So does everyone dress up like that?

Mi-Cha: Some people do.

Basma: So what else does everyone do on Chuseok?

Mi-Cha: We get together with our relatives. And we eat a lot!

Basma: Well, that sounds nice.

Mi-Cha: Not only that, but we go to our hometowns and visit the graves of our ancestors.

Basma: So I suppose the airports and train stations are mobbed with people, right?

Mi-Cha: Totally. And the traffic is impossible. It takes hours to get anywhere.

Basma: I think every country's got at least one holiday like that!

Mi-Cha: What holiday comes to mind for you?

Basma: It reminds me of Eid al-Adha, a four-day religious holiday we celebrate where I come from.

Mi-Cha: In what way?

Basma: Well, people put on their best clothes, and we eat a ton of great food. We also travel to be with our relatives and visit the graves of our loved ones who have died.

Mi-Cha: How about that! Sounds just like our holiday.

Holidays

Around the World

Ramadan, the Month of Fasting

“May you be well throughout the year” is the typical greeting during Ramadan, the ninth month of the Islamic calendar, a special occasion for over one billion Muslims throughout the world. According to Islamic tradition, Ramadan marks the time when Muhammad received the word of God through the Koran. Throughout the month, Muslims fast—totally abstaining from food and drink from the break of dawn until the setting of the sun. It is also a time of increased worship and giving to the poor and the community. Ramadan ends with the festival of Eid ul-Fitr—three days of family celebrations—and eating!

Worshippers pray during Ramadan.

The Chinese New Year

The Chinese New Year is celebrated by Chinese around the world and marks the beginning of the first month in the Chinese calendar. The celebration usually takes place in February and lasts for fifteen days. Before the holiday begins, families clean out their houses to sweep away bad luck, and they decorate their doors with red paper and big Chinese characters for happiness, wealth, and longevity. The night before, families gather together for a delicious meal. Outside, people set off firecrackers that make loud noises all through the night. In the morning, children wish

their parents a healthy and happy new year and receive red envelopes with money inside. It is customary for people to give each other small gifts of fruits and sweets and to visit older family members.

On the last day, people have a parade in the street carrying a large cloth dragon.

Simón Bolívar's Birthday

Simón Bolívar was born on July 24, 1783, in Caracas, Venezuela. He is known throughout Latin America as “The Liberator” because he led the fight for independence from Spain. His armies freed Venezuela, Bolivia, Colombia, Ecuador, and Peru. He is memorialized in many ways, but two countries celebrate his birthday every July 24th—Venezuela and Ecuador. On that day, schools and most general businesses are closed, and there are military parades and government ceremonies. But the malls are open, and people usually use the holiday to go shopping.

Bolívar led the fight for independence.

A DISCUSSION Most of the pictures represent inventions. Do you know which one(s) resulted from a discovery? How would you explain the difference between an invention and a discovery? Provide some examples of inventions and discoveries.

B 4:20 **PHOTO STORY** Read and listen to a conversation about how an invention might have helped someone.

Leslie: This itching is driving me crazy!

Jody: Look at your arm! Are those mosquito bites?

Leslie: Yeah. Ben and I got eaten alive last weekend. We went away for a second honeymoon at this cute little bed and breakfast in the mountains, but the mosquitoes were brutal.

Jody: That doesn't sound very romantic. Didn't they have screens in the windows?

Leslie: Well, they did, but ours had a big hole, and we didn't realize it until the middle of the night. What a nightmare!

Jody: Too bad you didn't bring any insect repellent. There are tons of mosquitoes in the mountains this time of year. Hello!

Leslie: We actually *did* have some, but it just didn't work that well. You know how Ben is—everything has to be organic and natural and . . .

Jody: Well, with all due respect to Ben, you just have to bite the bullet once in a while and use the stuff that works. Whether you like it or not, the poison *is* effective.

Leslie: I agree, but Ben won't hear of it. You know, next time we go away for a romantic weekend, I'm packing one of those mosquito nets to hang over the bed.

GRAMMAR The unreal conditional: Review and expansion

Remember: Unreal conditional sentences describe unreal conditions—conditions that don't exist.

Use the simple past tense or **were** in the **if** clause. Use **would** or **could** in the result clause.

if clause (unreal action or condition)

If I **wanted** a cutting-edge phone,
 If you **were** here,

result clause (if it were true)

I'd **look** for one at TechnoWorld. (But I *don't* want one.)
 we **could study** together. (But you are *not* here.)

The **if** clause can occur first or last. If the **if** clause comes first, use a comma.

If it weren't so expensive, they would buy it. OR They would buy it if it weren't so expensive.

Be careful!

Never use **would** in an **if** clause.
 Don't say: If you **would** be here . . .

Questions

- If you **saw** a lighter laptop, **would** you **buy** it? (Yes, I would. / No, I wouldn't.)

Antibiotics

Today, vaccines can prevent some of the infectious diseases that in the past resulted in serious illness and death. Fortunately, for diseases caused by bacteria (tiny organisms that can only be seen by microscope), vaccines can make the difference between life and death.

What are antibiotics?

Antibiotics are substances that work in one of two ways. Some antibiotics, such as penicillin, kill disease-causing bacteria. Others, such as tetracycline, stop them from multiplying.

History

In 1675, Dutch scientist Antonie Van Leeuwenhoek, using a microscope, discovered the existence of microorganisms.

However, it wasn't known that they could cause disease until French scientist

Louis Pasteur confirmed that approximately 200 years later. Finally, in 1928, British scientist Alexander Fleming noticed that a mold, penicillium, growing in one of his petri dishes, was capable of killing bacteria, and the development of antibiotics became possible. Fleming named the active agent in the mold "penicillin" but was unable to create a drug from it.

In 1940, during the Second World War, two scientists working at Oxford University, Ernst Chain and Howard Florey, were able to make an antibacterial powder from penicillin that was safe to use on humans. Penicillin was mass-produced for use on soldiers in the war. If there had been no penicillin, many would have died from bacterial

Fleming examines the behavior of penicillium in a petri dish.

infections caused by their injuries and wounds. Soon penicillin was used for serious diseases such as pneumonia and tuberculosis, which had always caused many deaths. Fleming, Florey, and Chain received the Nobel Prize in 1945. Antibiotics changed medicine and continue today to enable people to survive conditions that would have killed them before the antibiotic age.

Overuse of antibiotics

Since their discovery and widespread use, antibiotics have been considered a wonder drug. Many common diseases, however, are caused by viruses, not bacteria, and antibiotics are not effective against them. Nevertheless, too many people use antibiotics regularly, believing they will cure viral illnesses such as common upper respiratory infections, colds, and sore throats. Why is this a problem?

First, it is a waste of money to use antibiotics to treat viruses. Our body's immune system eventually combats most viruses, and we recover without treatment. But more importantly, bacteria exposed to an antibiotic can become resistant to it, making the antibiotic less effective, or even useless. If antibiotics no longer work against infections and diseases, people will begin to die from them again.

If scientists had recognized that bacteria could develop resistance, perhaps they would have warned doctors not to use antibiotics unless a patient has a bacterial infection. Hopefully, worldwide awareness of this threat to an important class of drugs will convince us to avoid using them for conditions that don't require them.

Van Leeuwenhoek used a microscope to observe microorganisms.

Some diseases caused by bacteria

Tuberculosis
Plague
Pertussis
Streptococcal sore throat (or "strep throat")

Some diseases caused by viruses

Influenza (or "the flu")
Polio
AIDS
The common cold
Hepatitis

A FIND SUPPORTING DETAILS Answer the questions in your own words. Explain your answers, based on information in the Reading.

- 1 What is the benefit of antibiotics?
- 2 Why are antibiotics not effective against the common cold?
- 3 Why are antibiotics effective against strep throat?
- 4 What problem has overuse of antibiotics caused?

B UNDERSTAND FROM CONTEXT Choose the correct word to complete the sentence.

- 1 (An antibiotic / A vaccine) prevents diseases from occurring.
- 2 (Bacteria / Tetracycline) can cause infectious diseases.
- 3 Bacteria are small organisms that can only be seen (in a petri dish / with a microscope).
- 4 (Penicillium / Penicillin) is a drug that kills bacteria.
- 5 The common cold and influenza are common (bacterial / upper respiratory) infections.
- 6 Some antibiotics are no longer effective because certain bacteria have developed (overuse / resistance) to antibiotics.

The poverty has affected the quality of the schools, and students from schools in poor areas don't have a success. Joanna Clark, the conservative candidate, disagrees. She believes a progress has been made by investing in the teacher education. Her advices are to keep the old policy. "Creating better schools takes the time and a patience," she says.

BEFORE YOU READ

EXPLORE YOUR IDEAS What is the difference between a problem and a global problem? Do you think your generation faces more serious global problems than the generation of your parents or grandparents? Explain.

READING ▶ 5:16

The following issues were most frequently mentioned in a global survey about current world problems.

CORRUPTION People all over the world complain about the corruption of police, government officials, and business leaders. Two examples of corruption are:

- A police officer takes money (a “bribe”) from a driver so he doesn’t give the driver a ticket for speeding.
- A company that wants to do business with a government agency offers a public official money or a gift to choose that company for the job.

Some people feel that power promotes corruption and that corruption is unavoidable. But an independent media—for example, non-government-backed newspapers, television stations, and Internet blogs—can also play an important role in exposing corruption.

POVERTY Approximately one-fifth of the world’s population, over 1 billion people, earns less than US \$1 a day. Each day, over a billion people in the world lack basic food supplies. And according to UNICEF, each day, 25,000 children under the age of five die of starvation or preventable infectious disease.

There are many causes of poverty, ranging from catastrophic natural events to bad economic and agricultural policies, so there’s no one solution to poverty worldwide. Some people feel that wealthy nations must send aid to poorer nations, while others are concerned that nothing will help unless local corruption is reduced and bad government policies are changed.

TERRORISM Every day, we see or hear about suicide bombings and other violent acts committed against innocent people for religious or political reasons. Many ask why terrorism is on the rise.

Some social scientists believe that television and movies may contribute to growing anger. They claim that some people may feel frustrated and powerless when they measure their lives against the lives of extremely wealthy people they see in the media.

However, views about what causes terrorism can be very controversial, and many people disagree about its causes or possible solutions. While some feel that terrorism can be met with military force, others believe

that people’s extreme poverty and powerlessness must be reduced to make a difference.

RACISM AND DISCRIMINATION Racism (the belief that one’s own race or ethnic group is superior to others) and racial and ethnic discrimination (treating members of other groups unfairly) exist in many places. These two common problems cause human rights violations all over the world. In some cases a more powerful ethnic or racial group justifies the domination and, horribly, even the complete destruction of ethnic or racial minorities they consider to be inferior. When taken to this extreme, genocides such as the European Holocaust and the massacre in Sudan have threatened to wipe out entire peoples.

Can racism and discrimination be eliminated—or are these simply unfortunate features of human nature? Many people believe that education can help build tolerance of the “other” and may contribute to creating a more peaceful world.

A UNDERSTAND FROM CONTEXT Match each definition with a word from the box.

- 1 a lack of necessary money to survive
- 2 the attempt to destroy all members of a racial or ethnic group
- 3 judging or harming people because of their racial or ethnic heritage
- 4 money paid or some other reward given to a person to perform a dishonest or unethical act or to provide a favor
- 5 the abuse of power by people in government or business
- 6 the belief that other racial or ethnic groups are inferior to one’s own

- a a bribe
b genocide
c poverty
d corruption
e discrimination
f racism

B ACTIVATE LANGUAGE FROM A TEXT Based on the information in the Reading, cross out the one word or phrase in each row that is unrelated to the others. Explain your reasoning.

2	money	property	income	racism
3	bribe	corruption	discrimination	money
4	hunger	starvation	domination	lack of food
5	racism	business	discrimination	prejudice

C CRITICAL THINKING Discuss each of the following.

- 1 Reread the section on corruption in the Reading. What do all acts of corruption have in common? Do you think it is possible to end corruption, or do you feel that it is a part of human nature? Use specific examples in your discussion.
- 2 What are some of the causes of poverty, and what are its effects?
- 3 In your opinion, why do people engage in acts of terrorism? Is terrorism an expression of power or powerlessness and frustration? Provide examples to support your opinion.
- 4 What reasons do people have to hate other groups? Is hatred of another group ever understandable, appropriate, or justified? Explain the reasons for your opinion.
- 5 Do you see a single problem connecting all four issues in the Reading? If so, what is it?

NOW YOU CAN Propose solutions to global problems

A FRAME YOUR IDEAS On a scale of 1 to 6, put the goals in order of importance and difficulty to accomplish (1 = most important or most difficult).

ORDER OF IMPORTANCE	GOAL	ORDER OF DIFFICULTY TO ACCOMPLISH

A ▶ 5.41 **VOCABULARY • Energy and the environment** Read and listen. Then listen again and repeat.

the environment *n.* the air, water, and land in which people, animals, and plants live

pollution *n.* the act of causing air, water, or land to become dirty and unhealthy for people, animals, and plants

climate change *n.* a long-term change in the Earth's temperatures and weather patterns

power *n.* electricity or other force that can be used to make machines, cars, etc., work

renewable energy *n.* power from natural resources, such as wind power or solar power (from the sun), that is continually available for human use

energy-efficient *adj.* using as little power as possible

B **DISCUSSION** What do you already know about global warming? What causes it? What effect is it having on the environment?

READING ▶ 5.43

Choose Clean Energy and Help Curb Global Warming

Compact fluorescent light bulbs use less electricity.

Fossil fuels such as oil, coal, and natural gas provide energy for our cars and homes, but increase the amount of carbon dioxide (CO₂) in the air, contributing to climate change in the form of global warming. However, there are choices we can make that can lessen their negative impact on the environment.

Get moving—Take good care of your car and keep your tires properly inflated with air. You will use less gasoline and save money. Better yet, skip the drive and walk, take public transportation, or ride a bicycle when you can.

Upgrade—Replace your old refrigerator or air conditioner with a new energy-efficient model. Not only will you save money on your electric bill, but you'll contribute to cutting back on the pollution that causes global warming.

See the light—Use new energy-saving compact fluorescent light bulbs. They produce the same amount of light as older incandescent bulbs, but they use 75% less electricity and last much longer.

Cut back—Try to reduce the amount of water you use for showers, laundry, and washing dishes. And turn the

temperature on your hot water heater down.

Recycle—Use products that are recycled from old paper, glass, and metal to reduce energy waste and pollution by 70 to 90%. And before you toss things in the garbage, think about what you can reuse.

Think local—Shipping foods over long distances is a waste of energy and adds to pollution. In addition, the pesticides and chemicals used to grow them are bad for the environment. So buy locally grown fruits and vegetables instead.

Speak out—Talk to lawmakers about your interest in curbing global warming. Support their attempts to improve standards for fuel efficiency, to fund renewable and clean energy solutions, such as wind and solar power, and to protect forests.

▶ 5.42 **Stress in verbs and nouns**

increase *v.* to become larger in amount
an increase in [temperature] *n.*

decrease *v.* to become smaller in amount
a decrease in [pollution] *n.*

The effects of global warming

- An increase in floods, droughts, tornadoes, and other extreme weather conditions
- A rise in sea levels, causing flooding in coastal areas
- Higher sea surface temperatures, endangering sea life
- The shrinking of glaciers, leading to a decrease in fresh water for rivers and less energy production
- A loss of tropical forests, an increase in arid lands, more forest fires, and a loss of animal and plant species
- A decrease in agricultural yields, leading to famine

Clean, renewable energy solutions like wind power can help curb global warming.

A UNDERSTAND FROM CONTEXT Find and underline each of the following words or phrases in the Reading. Then use your understanding of the words to write definitions.

- | | |
|------------------------|-----------------|
| 1 fossil fuels | 4 reduce |
| 2 global warming | 5 curbing |
| 3 inflated | 6 a rise |

B CRITICAL THINKING Discuss the questions.

- 1 The article mentions fossil fuels as a major source of energy. What two other sources of energy are mentioned? How are they different from fossil fuels?
- 2 Look at the list of the effects of global warming in the Reading. What impact could they have on these aspects of your country's economy: tourism, food production, housing, and disaster relief?

C SUMMARIZE Review the Reading again. Then close your book. With a partner, discuss and make a list of the ways the Reading suggests you can help curb global warming.

 For example: "a waste of energy."

B PAIR WORK Compare notepads with a partner. Discuss what you think each of you could do to help cut down on energy waste and pollution.

“ I don't really recycle everything I can right now, but I'd like to. I think it would be better for the environment if I did. ”

“ I want to buy energy-efficient light bulbs, but they're more expensive than the regular kind. ”

Expressing the future: review

These forms can express or imply the future:

The present continuous

My tooth has been killing me all week. I'm **calling** the dentist tomorrow.
 What are you doing this afternoon? I'm **going** to the beach.

The simple present tense

The office is usually open until 9:00, but it **closes** at 6:00 tomorrow.

Although **should, could, ought to, may, might, can, and have to** are not future forms, they often imply a future action.

You **could catch** the next bus. We **should call** her next week.

A Read each sentence. Check the sentences that have future meaning.

The future with will and be going to: review

Use **will** or **be going to** to make a prediction or to indicate that something in the future will be true. There is no difference in meaning.

Getting a new car **will cost** a lot of money. = Getting a new car **is going to cost** a lot of money.

Use **be going to** to express a plan.

My tooth has been killing me all week. I'm **going to call** a dentist. NOT I-will-call a dentist.

Be careful! **Will** is also used for willingness. This use of **will** doesn't have a future meaning. **Be going to** cannot be used for willingness.

A: Is it true that you **won't go** to the dentist?

B: I'll **go** to the dentist, but I don't like fillings. NOT I'm-going-to-go to the dentist, but . . .

UNIT 6 Lesson 2

Regrets about the past: wish + the past perfect; should have and ought to have

Wish + the past perfect

I wish I had married later in life. And I wish I hadn't married Celine!
Do you wish you had bought that car when it was available?

Should have and ought to have + past participle

Ought to have has the same meaning as **should have**.

I should have married later in life. = I ought to have married later in life.

I shouldn't have married Celine. = I ought not to have married Celine.

Note: American English speakers commonly use **should have** instead of **ought to have** in negative statements and in questions.

- A** On a separate sheet of paper, rewrite the statements and questions, changing wish + the past perfect to should have or ought to have.

She wishes she had had children. (ought to)

She ought to have had children.

- 1 Do you wish you had studied Swahili? (should)
- 2 I wish I had gone to New Zealand instead of Australia. (ought to)
- 3 Do you wish you had taken the job at the embassy? (should)
- 4 I wish I hadn't studied law. (should)

- B** Answer each question with a statement using wish + the past perfect.

- 1 Steven said, "I should have stopped smoking." What does Steven wish? *He wishes he had stopped smoking.*
- 2 Lauren said, "I shouldn't have bought this car." What does Lauren wish?
- 3 Carl's wife said, "You should have bought a convertible." What does Carl's wife wish?
- 4 Ms. Baker said, "The students should have studied more for the exam." What does Ms. Baker wish?

Don't say: Feijoada is a dish who is famous in Brazil.

Don't use a subject pronoun after the relative pronoun.

Don't say: Feijoada is a dish that it is famous in Brazil.

- A** On a separate sheet of paper, combine the two sentences into one, making the second sentence an adjective clause. Use who whenever possible. When it isn't possible, use that. Follow the example.

The hotel clerk was very helpful. / He recommended the restaurant.

subject

The singer **who** sang in the restaurant was terrible.

Real and unreal conditionals: review

• Real (or “factual”) conditionals express the present or future results of real conditions.

Present or everlasting results: Use the present of be or the simple present tense in both clauses.

If I speak slowly, people understand me.

If the temperature of water rises above 100 degrees Celsius, it turns to steam.

Future results: Use the present of be or the simple present tense in the if clause. Use a future form (future with will or present continuous for the future) in the result clause.

If I ’m late, I ’ll disturb the others at the meeting.

• Unreal conditionals express the results of conditions that don’t exist. Use the simple past tense or were in the if clause. Use would + a base form in the result clause. The order of the clauses can be reversed.

If I bought a more economical car, I wouldn’t worry so much about the price of gasoline.

If he were here, he would tell us about his trip.

Remember: The order of the clauses in conditional sentences can be reversed. It’s customary to use a comma after the if clause when it comes first.

If you buy a food processor, you won’t need to buy a blender.

You won’t need to buy a blender if you buy a food processor.

Remember: Conditional sentences have two clauses: an if clause and a result clause.

- Don’t use a future form in an if clause. Don’t say: If I will-be late, I’ll disturb the others at the meeting.
- Don’t use would in an if clause. Don’t say: If he would-be here, he would tell us about his trip.

A Correct the errors in the conditional sentences. More than one correct answer may be possible.

- 1 If you will take a good picture, it can preserve memories of times you might forget.
- 2 If I was you, I would send them an e-mail right away.
- 3 If you would go out today, you’ll need an umbrella.
- 4 Most people would eat healthy food if they understand the consequences of eating too much junk food.
- 5 These speakers will be OK if you used them in a smaller room.
- 6 If the weather will be better, I’d go for a swim.
- 7 If I would have a chance, I would work shorter hours.
- 8 Will you ride a bicycle to work if your car broke down?
- 9 What would you do if I would ask you to make dinner?
- 10 He won’t eat at that restaurant if they would tell him he had to wear formal clothes.

Clauses after wish

Use were or the simple past tense after wish to express a regret about something that’s not true now.

I wish my laptop were top-of-the-line. (But it’s not top-of-the-line.)

I wish I had a Brew Rite digital coffeemaker. (But I don’t have one.)

Remember: Use the past perfect after wish to express a regret about something that was not true in the past.

Sean wishes he hadn’t sold his car. (But he did sell it.)

Sean wished he hadn’t sold his car. (But he did.)

Use the conditional (would + a base form) after wish to express a desire in the present that something will occur in the future or on an ongoing basis.

I wish it would rain. (a desire for a future occurrence)

I wish it would rain more often. (a desire for something to occur on an ongoing basis)

Use would and a base form after wished to express a wish one had in the past for a future occurrence.

Yesterday I wished it would rain, but it didn’t. (a past wish for a future occurrence)

B Complete each statement or question with the correct form of the verb.

- 1 I wish my favorite author a new book. I’ve read all her old books so many times.

- C** On a separate sheet of paper, rewrite the sentences, changing **if + not** statements to **unless** and making any necessary changes. Follow the example.

Gerunds and infinitives: review of form and usage

Form

Gerunds: A gerund is a noun formed from a verb. All gerunds end in -ing. To form a gerund, add -ing to the base form of a verb.

discuss → discussing

If the base form ends in a silent -e, drop the -e and add -ing.

vote → voting

In verbs of one syllable, if the last three letters are a consonant-vowel-consonant* (CVC) sequence, double the last consonant and then add -ing to the base form.

CVC
s i t → sitting

BUT: If the base form of the verb ends in -w, -x, or -y, don't double the final consonant.

blow → blowing fix → fixing say → saying

* Vowels = a, e, i, o, u
* Consonants = b, c, d, f, g, h, j, k, l, m, n, p, q, r, s, t, v, w, x, y, z

If a base form has more than one syllable and ends in a consonant-vowel-consonant sequence, double the last consonant only if the spoken stress is on the last syllable.

permit → permitting BUT order → ordering

Infinitives: An infinitive is also a verbal noun. It is formed with to + the base form of a verb.

elect → to elect persuade → to persuade

Usage

Gerunds can be subjects, objects, and subject complements within sentences.

- Discussing politics is my favorite activity. (subject)
- I love reading about government. (direct object of verb love)
- I read a book about voting. (object of preposition about)
- My favorite pastime is watching TV news. (subject complement after be)

Infinitives function as subjects, direct objects, and subject complements.

- To hang out all day discussing politics would be my favorite weekend activity. (subject)
- I love to guess who's going to win elections. (direct object of verb love)
- My greatest dream for the future is to work in the government. (subject complement after be)

UNIT 6 Dividing an essay into topics

Look at the picture in the Oral Review on page 73. The picture tells the story of the lives of Michael and Carlota. It is divided into three topics, each with a date and a topic heading. The headings help the viewer see at a glance how the story will be organized.

Similarly, if a piece of writing contains more than one section or topic, it is sometimes helpful to include **topic headings** each time a new section begins. Each topic heading signals the topic of the paragraph or section in the way a table of contents in a book tells a reader what the sections will be about.

- A** Read the short biography of famous Dutch painter Vincent Van Gogh. Write your own topic headings to divide the biography into sections.

Early Life

Vincent Van Gogh was born in a small village in Holland on March 30, 1853. He was an introverted child, and he didn't have many friends. But his younger brother, Theo, was one of them. As he grew up, Vincent became interested in drawing—and he was very good at it.

In 1886, Vincent Van Gogh moved to Paris to live with Theo, who collected and sold paintings. In Paris, he met other artists and was influenced by their work. He also became interested in Japanese art and collected woodblock prints.

In 1888, he moved to Arles, a town in southern France. The artist Paul Gauguin moved there, too, and they became good friends. But they didn't have much money. Van Gogh often became sad and could not paint.

After a while, Van Gogh recovered and began to paint again. He sent some paintings to Paris, but he could not sell them. Then, in 1890, early on a Sunday evening, Van Gogh went out to the countryside with his paints. He took out a gun and shot himself in the chest. In his short, sad life, Van Gogh painted 200 paintings. He sold only one of them.

- B** **Guidance for the Writing Exercise (on page 72)** Use headings like these to organize your autobiography by topic. Under each heading, write notes of facts that belong in that section. Then refer to those notes as you write your autobiography.

Some headings:

My parents My birth My childhood
My studies (other)

UNIT 7 Descriptive details

To describe an event, be sure to provide descriptive details that express these four senses:

- sight** The fireworks are like beautiful red and yellow flowers in the sky.
There is a huge parade with thousands of people, and everyone is smiling.
- sound** As you walk down the street, you can hear music and people singing.
The fireworks are as loud as thunder, and you have to cover your ears.
- smell** You can smell the meat grilling on the street.
Everything smells delicious, and you can't wait to eat!
- taste** The pastries are as sweet as honey, and you can't stop eating them.
The dish has the sour taste of lemon.

Try using these patterns in some of your details.

like

This traditional dessert looks **like** a beautiful white cloud.

as . . . as

When it is in season, this local fruit is **as sweet as** sugar.

so . . . that

The decorations in the street are **so colorful that** you feel like a child seeing them for the first time.

A On a separate sheet of paper, write a sentence that expresses one of the four senses for each of the topics. Try to use like, as . . . as, and so . . . that in some of your sentences.

- | | |
|---|--|
| 1 Describe a smell in someone's kitchen. | 5 Describe something you see early in the morning. |
| 2 Describe a sound in your classroom. | 6 Describe something you hear at a park. |
| 3 Describe the taste of your favorite food. | 7 Describe something you see at a park. |
| 4 Describe the taste of something you liked as a child. | |

B Guidance for the Writing Exercise (on page 84) Write the names of the two holidays you chose. Then, under the name of each holiday, make a list of sights, sounds, smells, and tastes associated with it. Use these details in your writing.

UNIT 8 Summary statements

When a piece of writing contains several paragraphs, the ideas are often summarized in a paragraph at the end. Including a final **summary statement** reminds the reader of the main ideas that were presented. Read the short essay to the right. Notice the summary statement at the end.

After a problem or a breakdown, many drivers say, "If I had only had a spare tire, I would have been able to fix it and be on my way in a few minutes." Here are the things responsible drivers should never forget. First, a flashlight with working batteries can help you repair your car in the dark. Second, a spare tire can save you hours of waiting for help. You can't change that tire without a jack. If your car breaks down at night, flares can warn oncoming traffic that you are stopped. And if your battery dies, jumper cables can help you start the car again.

No matter how high-tech a car you have, breakdowns can happen at a moment's notice. However, we can plan ahead and be equipped with some simple technology to prevent a problem from becoming worse.

A Read the paragraphs and underline the main ideas. Then write your own summary statement.

There are a number of excellent presentation graphics technologies available today. Two well-known ones are Microsoft Office's PowerPoint™ and Macintosh's Keynote™. No matter which technology you use, here are some do's and don'ts that will make your presentation more successful.

First, the do's: Keep your slides concise. Keep the amount of text to a minimum because it's hard for the audience to focus on your main points if there's too much text. Use large letters (from 18 to 48 points) and simple, easy-to-read fonts. Use bullets to separate items in a list. Use just a few colors and keep that color scheme consistent throughout the presentation. If you project your slides in a bright room, light-colored text on dark backgrounds will be easiest to read.

What should a presenter avoid? Don't use all capital letters. They are hard to read. Never use dark letters on a dark background. The presentation will be hard to see. Don't use sound effects that are unrelated to the meaning of your presentation and avoid distracting transitions.

When presenting from a PowerPoint or Keynote presentation, look at your computer screen or handheld notes, not the screen the audience is looking at—to do that you would have to turn away from your audience and you would lose contact with the people you are presenting to.

Your summary statement:

B Guidance for the Writing Exercise (on page 96) After you have completed writing about the advantages, disadvantages, and historical impact of your invention or discovery, circle the main ideas in each paragraph. Use the main ideas to write a summary statement for your final paragraph.

UNIT 9 Contrasting ideas

The following language helps organize information by contrasting it. It signals to the reader that a contrasting idea will follow.

in contrast
on the one hand / on the other hand
however
nevertheless
even though

A technique to help organize contrasting ideas is to make two lists: pros (arguments in favor) and cons (arguments against).

To the right are handwritten notes a student made to prepare an essay that presents arguments for and against the mandatory use of a motorcycle helmet. The actual essay can be organized in two ways:

- 1 the pros and cons are presented together in contrasting sentences in each paragraph, or
- 2 as two paragraphs with the ideas in favor in one paragraph and the ideas against in another.

Pros	Cons
- injuries will be less serious in case of accidents	- it limits a person's freedom
- lives will be saved	- people should drive carefully to prevent most accidents
- medical costs will be lower in case of accidents	- if people think they are protected and safe from injury when they use a helmet, they might not drive carefully
- people don't have good judgment, so the government has to make decisions for them	- the government shouldn't interfere in the decisions of adults
- looks cool	- messes up your hair

- A The essay is organized into two paragraphs. Read the essay and write the main idea of each paragraph.

Should motorcycle drivers be required to wear helmets?

Main idea:

Many cities and countries have laws requiring motorcycle drivers to wear a helmet. In some ways, these laws are good and effective. For example, it is well known that motorcycle driving is very dangerous. If a motorcycle collides with another vehicle, the driver of the motorcycle has no protection and is often injured or killed. Most fatal injuries are caused by the driver's head hitting the pavement. **On the one hand**, such injuries are often not survivable. **But on the other hand**, if a driver is wearing a helmet, the chance of fatal head injury is reduced. Unfortunately, **even though** drivers know that helmet use could save their lives, many think an accident won't happen to them. **However**, if there is a law requiring drivers to wear helmets, a lack of judgment won't matter. Drivers will have no choice but to wear the helmet.

Main idea:

Nevertheless, there are arguments against compulsory helmet-use laws. Some people feel that wearing a helmet causes drivers to have a false sense of security. In other words, drivers may feel that when they are wearing a helmet, they don't have to drive carefully. With a helmet, they feel they have a justification for reckless driving. **In contrast**, other people object to helmet laws because they feel that the government shouldn't interfere with the decisions of adults. They argue that if they get hurt, it's their own responsibility, and if they die, it doesn't hurt anyone but themselves. People who have this opinion often complain about government intrusion in personal freedom.

- B **Guidance for the Writing Exercise (on page 108)** Write the issue you chose and make a list of pros and cons. Use your notes to organize and write your essay.

To describe a place, organize details according to spatial relations. Choose a starting point (for example, the capital city or the largest city). Describe its location.

Lima is the capital of Peru. It is located **on** the west coast, **on** the Pacific Ocean.

The largest city in China is Shanghai. It is located **in** the southeast, **along** the East China Sea.

Describe where things are located in relation to that point. Choose a logical order to follow, such as north to south or west to east, so it is easy for the reader to understand.

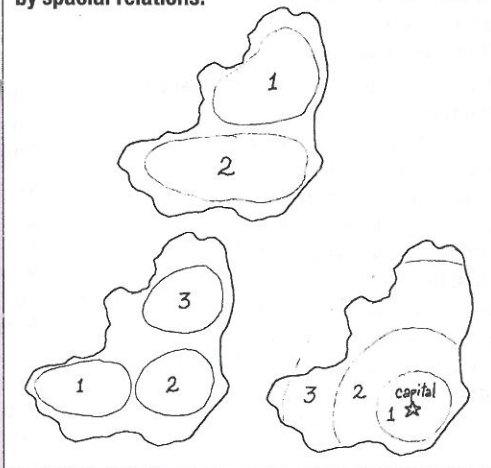

- **To the [north] of**
To the north of São Paulo is the city of Campinas.
- **In the [south] of**
In the south of the island is the city of Kaosiung.
- **[East] of**
East of Tokyo is the city of Chiba.
- **Next to**
Next to Washington, D.C., is the city of Baltimore.
- **In the middle / center of**
In the center of the country is the city of Madrid.
- **Along the [coast / river]**
Along the coast, and west of the capital, are the cities of Valparaíso and Viña del Mar.
- **At the start of**
At the start of the Pan-American Highway is the city of Fairbanks, Alaska.
- **At the end of**
At the end of the Volga River is the Caspian Sea.

A On a separate sheet of paper, write a description for each of these places, using the language above. (Use the map on the page shown.)

- | | |
|-----------------------------------|----------------------------|
| 1 Cobán (page 112) | 4 Mexico (page 112) |
| 2 Denali National Park (page 121) | 5 Alice Springs (page 113) |
| 3 Sydney (page 113) | 6 Juneau (page 121) |

B **Guidance for the Writing Exercise (on page 120)** Draw a simple map of the place you chose. Write numbers on your map for at least two important places, beginning with 1 for the location you will start from, 2 for the next location, and so on. Then use your map to help you write your descriptions, using the language of spatial relations.

Here are three possible ways to organize details by spatial relations.

Top Notch Pop Lyrics

▶ 2:17–2:18 I'll Get Back to You [Unit 3]

Your camera isn't working right.
It needs a few repairs.
You make me ship it overnight.
Nothing else compares.
You had to lengthen your new skirt,
and now you want to get
someone to wash your fancy shirts
and dry them when they're wet.
Come a little closer—
let me whisper in your ear.
Is my message getting across
to you loud and clear?

(CHORUS)

**You're always making plans.
I'll tell you what I'll do:
let me think it over and
I'll get back to you.**

You want to get your suit dry-cleaned.
You want to get someone
to shorten your new pair of jeans
and call you when they're done.
I guess I'll have them print a sign
and hang it on your shelf,
with four small words in one big line:
"Just do it yourself."
Let me tell you what this song
is really all about.
I'm getting tired of waiting while you
figure it out.
I've heard all your demands,
but I have a life, too.
Let me think it over and
I'll get back to you.
I'm really reliable,
incredibly fast,
extremely helpful
from first to last.
Let me see what I can do.
Day after day,
everybody knows
I always do what I say.

(CHORUS)

▶ 2:31–2:32 A True Life Story [Unit 4]

The story of our lives
is a real page-turner,
and we both know
what it's all about.
It's a fast read,
but I'm a slow learner,
and I want to see
how it all turns out.

(CHORUS)

**It's a true life story.
I can't put it down.
If you want to know who's in it,
just look around.**

The story of our lives
is a real cliffhanger.
It's hard to follow,

but boy, does it pack a thrill—
a rollercoaster ride
of love and anger,
and if you don't write it,
baby, then I will.

(CHORUS)

You can't judge a book by its cover.
I wonder what you're going to discover.
When you read between the lines,
you never know what you might find.
It's not a poem or a romance novel.
It's not a memoir or a self-help book.
If that's what you like, baby, please
don't bother.
If you want the truth, take another look.

(CHORUS)

▶ 3:17–3:18 Lucky to Be Alive [Unit 5]

(CHORUS)

**Thank you for helping me to survive.
I'm really lucky to be alive.**

When I was caught in a freezing snowstorm,
you taught me how to stay warm.
When I was running from a landslide
with no place to hide,
you protected me from injury.
Even the world's biggest tsunami
has got nothing on me,
because you can go faster.
You keep me safe from disaster.
You're like some kind of hero—
you're the best friend that I know.

(CHORUS)

When the big flood came with the
pouring rain,
they were saying that a natural
disaster loomed.
You just opened your umbrella.
You were the only fellow who kept calm
and prepared.
You found us shelter.
I never felt like anybody cared
the way that you did when you said,
"I will always be there—
you can bet your life on it."
And when the cyclone turned the day
into night,
you held a flashlight and showed me the safe
way home.
You called for help on your cell phone.
You said you'd never leave me.
You said, "Believe me,
in times of trouble you will never be alone."
They said it wasn't such a bad situation.
It was beyond imagination.
I'm just glad to be alive—
and that is no exaggeration.

(CHORUS)

▶ 3:31–3:32 I Should Have Married Her [Unit 6]

She was born with talents
in both literature and art.
It must have been her love of books
that first captured my heart.
We both had experience
with unhappiness before.
I thought we would be together
for rich or for poor.

(CHORUS)

**I should have married her.
She was the love of my life,
but now she's someone else's wife.
I thought we would be happy.
I thought our love was so strong.
I must have got it all wrong.**

It's hard to make a living
when you're living in the past.
I wish we could have worked it out,
but some things just don't last.
I wonder what she's doing
or if she thinks of me.
One day she just changed her mind.
The rest is history.

(CHORUS)

It's too late for regrets.
She's gone forever now.
We make our plans,
but people change,
and life goes on somehow.

(CHORUS)

▶ 4:34–4:35 **Reinvent the Wheel**

[Unit 8]

You've got your digi-camera with
the Powershot,
Four mega pixels and a memory slot.
You've got your e-mail and your Internet.
You send me pictures of your digi-pet.
I got the digi-dog and the digi-cat,
the "digi" this and the "digi" that.
I hate to be the one to break the news,
but you're giving me the "digi" blues,

(CHORUS)

**And you don't know
the way I really feel.**

**Why'd you have to go and
reinvent the wheel?**

You've got your cordless phone and
your microwave,
and your Reflex Plus for the perfect shave.
It's super special, top of the line,
with the latest new, cutting-edge design.
You've got your SLR and your LCD,
your PS2 and your USB.
I've seen the future and it's pretty grim:
They've used up all the acronyms.

(CHORUS)

I keep waiting for a breakthrough innovation:
Something to help our poor communication.
Hey, where'd you get all of that high-tech taste?
Your faith in progress is such a waste.
Your life may be state of the art,
but you don't understand the human heart.

(CHORUS)

▶ 5:20–5:21 **We Can Agree to Disagree**

[Unit 9]

I believe that dogs should be
allowed to wander free.
That may be true, but don't you think
that people have rights, too?
I believe that time has come
for true dog liberty.
I see what you mean, but I don't
share your point of view.

(CHORUS)

**We can agree to disagree
about what's wrong and right.
It wouldn't be cool for you and me
to fight when we don't see eye to eye.**

I think my cat deserves to eat
a treat, no matter what.
Well, on the one hand, yes,
but on the other hand, well, no.
Don't you feel that every meal
should be shared with a pet?
That's one way to look at it,
but I don't think so.

(CHORUS)

You can be a radical.
You can be conservative.
My dog doesn't care, and he won't ask you
to leave.
You can be a moderate.
You can be a liberal.
You can believe what you want to believe.

I urge you to think it over
before you decide.
That your dog is very nice,
I couldn't agree more.
I believe that you and I
should be the best of friends.
That's exactly what I think.
Why weren't we friends before?

(CHORUS)

▶ 5:45–5:46 **It's a Beautiful World**

[Unit 10]

The path is located
half an hour west of here.
I heard it's a must-see,
and that it goes pretty near
to a breathtaking beach
a little farther up the coast.
That's the one that everybody
seems to like the most.

(CHORUS)

**It's a beautiful world.
Be careful as you go.
The road is dark and dangerous.
Be sure to take it slow.
Yes, it's a beautiful world,
from the mountains to the seas.
Through life's lonesome valleys,
won't you come with me?**

Are you planning on going
to see the waterfall?
I've been thinking about it,
and I want to do it all!
Would you happen to know
anything about Rocky Cave?
How do you get there?
Can you show me the way?

(CHORUS)

I can't wait.
I don't want to miss it.
There isn't a place worth seeing
that I don't want to visit.

(CHORUS)

Creating Your Life Plan

If you have goals in your life, but no plan to complete them, you will not be successful. That's why in order to have success in school, business, and your personal life, you need a life plan. A plan will help you turn your dreams into reality. To create your life plan, ask yourself two questions: *Where am I going? How will I get there?*

Where am I going?

To answer this question, follow these steps:

- Create a life map—not an ordinary map, but a map of where you have been in your life and where those experiences can take you. Write down the important events in your life over the past few years. You decide what is important. It is different for everyone. For example, did you get a new job last year that you love? Did you pass an exam? Did you learn something interesting? Did you get married? To see your life in the future, you should first look into your past.
- Next, look carefully at your list. Do you have regrets? Have your tastes changed over time? Planning for the future means making decisions that make you happy and match your interests and talents. Use your past experiences to set your goals for the future. Your life map can help you avoid making the same mistakes or having regrets.
- Finally, set your goals to achieve over the next weeks, months, and years.

How am I going to get there?

Once you've decided on your life destination, you can start following your plan. Here are some tips to help you:

- Break your large goals into smaller ones. Almost any goal, no matter how difficult, will be easier to achieve if you break it down into several smaller goals.
- Focus on your goals and don't get distracted by unimportant things.
- Don't give up. You won't be successful at everything right away, so you should always try again.
- Make friends. It's difficult to succeed if you're alone, so support from good friends is very important.

Once you have created your life plan, go forward with it, but also go back to it. Tastes change. Circumstances change. Don't be afraid to tailor your life to changes in your life.

"A goal without a plan is just a wish."
~ Antoine de Saint-Exupéry

- 1. A life plan can help you plan your career choices.
- 2. A life map is a list of your daily goals.
- 3. Don't use a life map if you don't have regrets.
- 4. It's helpful to analyze your past experiences when you plan for the future.
- 5. One of the first steps in life planning is to determine what makes you happy.
- 6. It's better to have a few big goals than many small goals.
- 7. Making a life plan helps you listen to others.
- 8. Once you make a life plan, you should not change it.

23 WHAT ABOUT YOU? Answer the questions in your own way.

1. What are three important experiences you would put on your life map? Why do you think they are important?

Amelia Earhart

Amelia Mary Earhart was born on July 24, 1897, in Atchison, Kansas. At three years old she went to live with her grandparents who lived fifty miles away. Amelia was a tomboy, and loved snow sledding and climbing trees. She lived with her grandparents until she was ten. At ten she moved back with her parents and her younger sister, Muriel.

Amelia saw her first airplane at the 1908 Iowa State Fair. At this fair, there was a stunt-flying exhibition, and it fascinated Amelia. It was here, as she watched these planes twirling and swooshing, that Amelia fell in love with the idea of flying. Amelia actually had to wait thirteen years to take her first ride in a plane, and just six months after that, she bought her first plane. It was bright yellow and she called it *Canary*.

Amelia was very competitive, and entered many flying contests over the next several years. She continually broke the records of other aviators. To mention just a few:

In June of 1928, she became the first woman to fly across the Atlantic.

In May of 1932, she became the second person to fly solo across the Atlantic.

From August 24 to 25, 1932, she flew a solo nonstop flight from the west coast of the United States to the east coast, making her the first woman to do that.

From April 24 to 25, 1935, she was the first person to fly solo from Hawaii to California.

At the age of forty, in 1937, Amelia Earhart wanted to be the first woman to fly around the world. She and her navigator took off from Oakland, California, and flew to Miami, then through the Caribbean to Brazil and through Africa to India. After India, they flew to Bangkok, Indonesia, Australia, and then Papua New Guinea. From Papua New Guinea, they flew toward Howard Island, 2,200 miles away. They never arrived, and despite extensive searches, they were never found.

No one knows for sure what happened to Amelia and her navigator, but the world knows that Amelia is one of the most important and influential aviators in history.

CHILDREN'S DAY

The idea behind Children's Day was to encourage all nations to focus on the needs, rights, and well-being of children everywhere. Since then, and in some places even before then, Children's Day has been celebrated in many countries, on different days, and in different ways.

Japan

Children's Day in Japan used to be celebrated separately for girls (on March 3) and for boys (on May 5), but today it's a holiday for all children on May 5. On Children's Day, families with boys often hang carp decorations, since a carp is a fish that symbolizes strength and success. They also display figures that look like warriors, or fighters. People eat rice cakes filled with bean paste and covered with leaves. There are many sporting and art events for children all over Japan on that day.

Korea

Celebrated on May 5, Children's Day is a national holiday in Korea. Many parents don't work and spend the day with their children. Families often visit parks, zoos, and movie theaters because they're free for children on this day. Parents traditionally give their children gifts and money.

India

Jawaharlal Nehru, the first prime minister of India, deeply loved children. His birthday, November 14, became Children's Day in India. Schools celebrate by having cultural programs and handing out treats and snacks. There are competitions and games of all kinds.

Turkey

Mustafa Kemal Atatürk, founder of the Turkish Republic, established April 23 as Children's Day in this country. People enjoy festivals and performances by children. Children replace the president, prime minister, members of the Grand National Assembly, and other officials for one day. They address children's and educational issues.

Samoa

Lotu-Tamiatu, or Children's Day, is celebrated in Samoa on White Sunday, the second Sunday in October. It is both a religious and national holiday in Samoa. The Wedding Ring

At weddings in many parts of the world, brides and grooms give one another wedding rings. These rings remind them of the commitment they made to one another when they got married. They are also a sign to others that they are married.

No one knows for sure how this tradition started, but there is evidence that it began long ago, in ancient Egypt. Coins at that time had a hole in the center. An Egyptian groom used to place a coin on his bride's finger to show that he would take care of her.

In many ancient cultures, the circle is a symbol of eternity. The wedding ring has come to symbolize endless love and commitment.

... RUBE GOLDBERG

Of all the wacky inventions people have designed, none can compare to the innovative creations of an award-winning cartoonist Rube Goldberg. Rube Goldberg was born in San Francisco in 1883. He earned a degree in engineering, but he wasn't interested in it. He preferred drawing cartoons that made fun of the changes that were happening in the early twentieth century.

In the early 1900s, people were busy creating new machines to help make life easier and get things done faster. The U.S. Patent Office was flooded every year with new inventions for absolutely everything. Rube Goldberg saw the humor and dangers in the new inventions that were changing the lives of ordinary people. And so, for over fifty years, he drew cartoons that made fun of the new machines. He drew "inventions" that used simple everyday items—buckets, cups, balls, sticks, etc.—connected to each other in funny ways to get the simplest task done in many complicated steps. Rube Goldberg took the simplest task and, using the most low-tech technology, made it the most complicated task with high-tech design. His inventions became so famous that his name has been included as a noun in Webster's Dictionary.

One invention, for example, was the "Self-Operating Napkin," which automatically wipes a person's chin. Here's how it works: A person lifts a soup spoon to his/her mouth. The spoon pulls a string, which makes a larger spoon throw a cracker to a parrot. The parrot

jumps to catch the cracker. The stand, on which the parrot was sitting, falls over and makes bird seeds fall into a bucket. The extra weight in the bucket pulls a string, which lights a lighter. The lighter sets off a fire cracker that causes a knife to cut another string. A pendulum that was attached to the string swings back and forth. It has a napkin attached to it, so when it swings, it wipes the person's chin. Thirteen steps make the chin clean, just by lifting a spoon!

Today, in memory of Rube Goldberg, The National Rube Goldberg Machine Contest is held each year. Teams compete to create machines to do the simplest tasks in no less than twenty steps. Recent winning inventions have included a machine to squeeze orange juice, a machine to toast bread, and a machine to turn off an alarm clock.

Rube Goldberg (n.) a comically involved, complicated invention, laboriously contrived to perform a simple operation

1. In the early twentieth century there were a lot of dangerous inventions.
2. Rube Goldberg designed wacky inventions.
3. He wanted to have his inventions patented.
4. His designs used new technology.
5. The "Self-Operating Napkin" was an efficient tool.
6. Rube Goldberg was serious about his inventions.
7. High-tech inventions that are too complicated are called *Rube Goldberg*.

A Read the article. Write the main idea of each paragraph on the line.

How to Become an Inventor

Many people think that becoming an inventor is a simple process of three steps: having a bright idea, researching the market for the idea, and then selling that idea to a large company. It's not that simple, however, and can often be a time-consuming, difficult process. So let's take a look at what you need to do to become an inventor.

Main idea: _____

Every invention starts with an idea. Brainstorm your ideas with colleagues, friends, and family. For any idea they like, do research to check that your idea is original. Decide if you want to protect or patent your idea from being copied. Think carefully about this, as you do not want to be an inventor who says, "He wouldn't have been able to steal my idea if I had patented it."

Main idea: _____

So now you have the idea, what's next? Once you settle on the idea for your invention, study the market you want to sell it to. Get to know as much as you can about the customers who will buy your product. Make sure it will be profitable.

Main idea: _____

Once you have identified the market for your invention, write a business plan, possibly create a sample of your product, and then go out and try to sell it. This is a challenging stage because you could meet with a lot of rejection. Keep going and don't give up. Do not lose sight of your goal—seeing your product used and enjoyed by millions.

Main idea: _____

B Read the two summary paragraphs for the article in Exercise A. Check the one that best summarizes the article.

- Summary 1:** Becoming an inventor is not as easy as it seems. It is a complex process that involves many steps and takes a lot of time and energy. However, success will more likely come to those inventors who keep positive and never give up.
- Summary 2:** It is a long and time-consuming process to become an inventor. It involves a lot of steps: brainstorming ideas, checking competition, applying for patents, studying the market, writing business plans, and then going out and selling the idea. The latter can be discouraging at times, but inventors need to stay positive and not give up.

C Read the article. Write the main idea of each paragraph on the line. Then write your own summary paragraph at the end of the article.

Global Positioning Systems

If you've ever said, "I wish I knew where I was going" or "If only there were some way to find this address" then it may be time to consider buying yourself a Global Positioning System, or GPS.

Main idea: _____

Let's look at some of the uses of a GPS device. Maybe you travel a lot by car and cannot look at a paper map to find your way around. There is a GPS for cars that speaks to you and tells you exactly how to get to your destination. Maybe you're a golfer who has lost his golf ball and you need to find it on the field. There's a GPS for this. How about you're a runner and want to track your speed, distance, and the courses you run. Well, there's a GPS for this, too.

Main idea: _____

What kinds of GPS devices are there? Well, GPS devices come in all kinds of shapes and sizes, and are available in a variety of prices. Some are small and can fit into a pocket, and others are waterproof. And for people who don't like to carry anything extra with them, GPS systems are also available on smart phones.

**Come "fly" over the rainforest!
We'll take your breath away!**

Located in Cairns, Australia, Rainforest Flyway is a world leader in ecotourism. We take our guests on a breathtaking "flight" over rainforest trees and straight into the heart of the rainforest for an unforgettable experience.

On the Flyway, you'll experience over 7.5 kilometers of living rainforest while learning about this spectacular place. Did you know that Australia's rainforests are home to over 3,000 different plant species? And some of the trees here are more than 3,000 years old! After this visit you'll understand why it's so important to preserve the rainforests. And you'll see that environmentally responsible travel can be fun, educational, and breathtaking.

Even if you're a world traveler, you've never experienced anything like the Rainforest Flyway. You'll start your unique journey above the rainforest, as you "fly" in a comfortable gondola only a few meters above the trees. Sit back and enjoy the extraordinary scenery. You will be amazed at the breathtakingly rich and lush foliage. And rest assured, there was no damage done to the rainforest ecology during the construction of your gondola. That's why the development of the Flyway took over 40 months to complete!

Your gondola will bring you down into the rainforest itself, where you follow a path to see, hear, and smell the rainforest environment from the ground. Free tours are available several times a day. Tour guides can point out some unusual plants, provide you with interesting facts about rainforest ecology, and answer your questions.

Your Rainforest Flyway experience lasts 90 minutes and ends in the small town of Kuranda, just 25 kilometers northwest of Cairns. Here, you can continue your eco-tour with a visit to the protected areas that 2,000 tropical butterflies call home. You can also buy original arts and crafts made by the people of Kuranda. And if that isn't enough, you can continue on to the wildlife reserves located a short 9 kilometers west of Kuranda to see animals from all parts of the world.
